

## PRESS RELEASE

### **DC Placement Advisors ranks Nr. 5 in Dow Jones Global Placement Ranking 2010**

Munich. 22<sup>nd</sup> April, 2010 – For immediate release – DC Placement Advisors GmbH ranks nr. 5 in prestigious Dow Jones Private Equity Analyst Report.

The ranking list is the result of the survey “Sources of Capital”, Issue April 2010, conducted by Dow Jones Private Equity Analyst in 2009. In sum, 126 private equity firms and 21 placement agents representing nearly 40 billion US Dollar, responded to the survey.

Being Nr. 5 of the global ranking list is for the in 2008 founded daughter of the acknowledged Dohr Capital GmbH remarkable, given the fact, that many institutional investors have withdrawn from the private equity investment business. The amount of capital raised in 2009 is considerably lower than the amount raised in 2008, according to Dow Jones Private Equity Analyst, who reported that capital raising in 2008 was 423,3 billion US Dollar, whereas 2009 only 126,2 billion US Dollar could be raised in the US and Europe.

The in 2008 determined company goal of DC Placement Advisors, to become the recognized independent placement agent leader in the German speaking market, is therefore fully met and even overachieved, since DC Placement advisor also scored number 3 on the European wide ranking list of Dow Jones Private Equity Analyst Report.

“Last year we were successful in positioning the company as the leading bank independent placement agent in the German speaking market. “In 2010 we will be instrumental for our clients also European wide representing them at the institutional investors market”. We will be up-scaling our business model across Europe and strive for the market leadership there”, said DC Placement advisors managing director Miss Nina Dohr-Pawlowitz.
