## **AMP Capital's Infrastructure Debt Fund reaches final close**

July, 5th, 2012

AMP Capital recently announced the final closing of the AMP Capital Infrastructure Debt Fund (the Fund). Since launching in late 2010, the Fund has attracted €400 million in commitments from 30 global institutional investors, including Australian, Chinese, Japanese, US, UK and German pension and endowment funds.

To date, the Fund has successfully invested €169.5 million in line with its investment strategy to invest in the subordinated debt of defensive, non-cyclical brownfield infrastructure businesses, targeting sectors that serve as the backbone for the provision of essential products and services.

AMP Capital sees infrastructure debt investing as a continuing strategy for them as they recognise the compelling investment opportunity. The Investment Team is focused on sourcing and acquiring appropriate assets to implement the investment strategy of the Fund and look forward to continuing to update on the progress of the Fund's investment program.

DC Placement Advisors acted as the exclusive financial advisor and placement agent for the offering in the German-speaking markets.
